PROJECTS

Health Care System |

Built a responsive web app to manage patient records, doctor appointments, and billing using HTML, CSS, JavaScript, and PHP.

- Integrated MySQL database for secure, real-time storage and retrieval of medical data.
- Automated manual workflows and enabled easy access to patient information through a user-friendly interface.

Personal Portfolio |

Developed a fully responsive portfolio website using HTML, CSS, and JavaScript to showcase projects, skills, and contact information.

- Designed clean and interactive UI with smooth navigation and mobile-friendly layout.
- Deployed the site using GitHub Pages (or Netlify), enabling easy public access and professional presentation.

CERTIFICATES

📄 **SQL Query Optimization for Beginners**
Simplilearn | June 2025
Certificate Code: 8414733
